Hi AWAKEN Clients,

Thank you so much for choosing to work with me through the years and for your support of our practice. We appreciate you putting your trust in our services.

Unfortunately, at this time, we are not able to accept new clients and will be tapering off individual counseling and consulting services.

The company has contracted to provide services with a larger business for the past five years, and the contract requirements have increased. In an effort not to do a disservice to my practice due to lack of availability, I have decided it is best to provide my clients with other viable options.

Should things change, I will, of course, be in touch. In the meantime, however, I will be available to you for any specific guidance that you may need to find a new therapist for the services you need.

I am attaching a referral list for your convenience and would be happy to provide any guidance without recommending a particular therapist. That choice is yours.

If you have any other questions, please feel free to reach out to me. I'd be very willing to help.

Yours Sincerely,

Buffie M. Williams, M.S. LPC-S NCC 200-YT
